## Westerly Fire District Extension

**Favored by Property Owners—To be Considered at Special Meeting Next Week—Order of Exercises for Lincoln Centenary Celebration—Visiting Nurse System to be Explained—Baseball Gossip.**

Bowen lodge of Westerly was represented at the 33rd annual convention of the Grand Lodge, Knights of Pythias, domain of Rhode Island, Tuesday in Providence. Grand lodge rank was conferred upon 34 past chancellors, which included James V. McCollor of Westerly.

The reports showed these interesting statistics: Subordinate lodges in the jurisdiction at last report, 35; membership, 4,342; initiated during the year, 176; admitted by card, 6; reinstatements, 14; total, 4,528. From which deduct: Withdrawals, 14; suspensions, 171; deaths, 47; total, 234. Which leaves a membership of 2,954, of which 17 are past grand chancellors, 472 past chancellors, 2,444 knights, 13 esquires and 46 pages.

The officers for the ensuing year were elected as follows: J. Irving Davis of Providence, alternate supreme representative; John J. Hackett of Bristol, vice grand chancellor; William A. Wilson of Providence, grand keeper of records and seal; Andrew McKenize of Providence, grand master of exchequer; John Ogden of Providence, grand treasurer; and a representative for four years: William A. Langley of Newport, alternate supreme representative for two years.

Chief Engineer Samuel G. Cottrell has completed the canvass for the committee appointed by the Westerly fire district of the property owners in the proposed extension section, and a large majority is in favor of the enlargement of the fire district. The committee held a session Wednesday evening, and it was decided to call a special meeting of the fire district, at which time this committee will make report.

There will be a special meeting of the fire district next week, when steps will be taken to procure from the present session of the general assembly the legislation necessary to enlarge the Westerly fire district. It is believed.

## The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

## Porcelain Dentistry

The Interesting Advances Shown by Modern Dentistry Over the More Cumbrous Methods of the Past.

The Introduction of Porcelain Dentistry Does Away with Pain—Wonderfully Natural Effects Possible.

Prominent dentists all over the country, dentists who serve the very best class of patients, are fast coming to a realization of the fact that as gold at one time superseded other methods of filling the teeth, so porcelain is now, in many cases, superseding gold. However, the dentist who has been using gold for many years finds it difficult to change to porcelain because of the fact that it takes time and study to learn to properly manipulate porcelain.

Gold in the teeth is really unsightly. There is a contrast between the gold, which becomes black, and the pearly white of the teeth, that is annoying indeed to particular people, and especially in this so where a great deal of gold is used. Many people find the constant drilling and hammering consequent upon gold filling painful and nerve racking.

In order to give the people of Norwich the benefit of the Porcelain method, Dr. Jackson, the manager of the King Dental Parlor, with offices on Franklin Square, has equipped a department with a complete outfit for doing this class of work. This department is in charge of an expert dentist from New York city, who has for several years made a specialty of Porcelain Dentistry and the Alveolar method of restoring lost teeth.

With porcelain, a tooth can be filled to defy detection, because of the fact that the porcelain will perfectly harmonize with the color of the structure of the teeth. There can be no injury to the nerves, and for this reason, and because of the unpleasant features attending its use, porcelain dentistry is particularly adapted to children. Metals in teeth often generate a nerve current and give rise to various nervous troubles. This is not so in the case of porcelain. Any intelligent person who gives this matter any thought will at once appreciate the advantages of the new dentistry, and the number of people who stay away from the dentist because of unpleasant experiences or because they prefer imperfect teeth to a mouth full of unsightly metal.

Recognize the fact that here is dentistry which they can take advantage of without hesitation. Dr. Jackson is well known in the city, and the fact that he is now introducing modern porcelain dentistry will undoubtedly bring to his office many people who have long appreciated the unsatisfactory results of the older methods. Anyone who has remained in a dentist's chair for hours during a tedious session of painful drilling or continuous use of the mallet knows what such experiences mean and will be quick to appreciate the difference in methods, and it is because of the fact that the best patients are demanding porcelain work that dentists are beginning to avail themselves of the advantages, both to their patients and to themselves. Dr. Jackson will welcome a visit to his office and will be glad to explain personally the many points of advantage in porcelain dentistry that have only been hinted at in this article. He has attained a state of perfection in porcelain plates have been used extensively in the highest class work for many years.

Dr. Jackson assures you of the highest amount of satisfaction in dental work. It would be well also to take your children to him as you will find porcelain dentistry unusually desirable for their needs—it goes to the dentist of all his terrors for the little folks.

The King Dental Parlor is located on Franklin Square, over Somers Bros. The offices are clean and pleasant. Special attention is given to the sterilization of instruments and every effort is made to give comfort to their patients. Hours from 9 a. m. to 8 p. m. Sundays from 10 a. m. to 2 p. m.
